The Government of Haryana's delegation to Singapore, led by Chief Minister Nayab Singh Saini from October 4–7, 2026, engaged with global business leaders, institutional investors and industry stakeholders to strengthen economic ties and explore investment opportunities.

Primus Partners, the investment promotion partner to the Government of Haryana, supported the State's investor outreach during the visit. Its role included identifying and engaging priority investment prospects, organising one-on-one government-to-business (G2B) meetings with global CEOs, founders and investment leaders, preparing tailored investment propositions, and supporting the Haryana Investor Roadshow and investor roundtable.

The discussions covered several sectors, including logistics and warehousing, industrial and urban infrastructure, data centres, fintech, agribusiness, clean energy and education.

During the engagements, the delegation highlighted Haryana's proximity to the national capital, connectivity, talent pool and investor-friendly policy environment. The meetings also provided an opportunity to gather investor perspectives on strengthening the State's proposition for global businesses.

The Singapore visit comes ahead of "Happening Haryana 2.0", the Global Investors Summit being organised by the Government of Haryana in April 2027. The outreach aims to build global investor participation in the Summit and position Haryana as a destination for investment, innovation and enterprise.
